SCIENTIFIC RESEARCH

61
Laboratories

- **>1700 Researchers**
- **>6000 PhD Students**

RESEARCH THEMES

Sciences and Technology

- Intelligent systems/Artificial intelligence and its applications
- Materials and environmental Engineering
- Innovative technologies
- Biotechnology
- Geosciences and Environment
- IT, automation
- Mathematics, Statistics, Modeling and Systems Analysis
- Pharmacology and Natural Substances
- Mechanical Engineering and Industrial Techniques
- Applied Physics and Solid State Physics
- Renewable energies
- Chemistry, Electrochemistry and its Applications
- Sport sciences

Medical Sciences

- Research in health sciences (Epidemiology; Human pathology, Biomedical and clinical neuroscience)

Humanities and Social Sciences

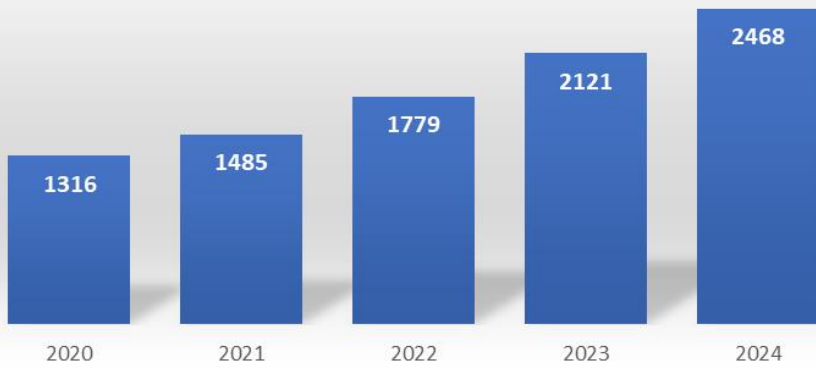

- Information and Communication Science
- Languages, literature, discourse and translation
- Society and religion
- Psychology, Sociology and culture
- Sustainable Development and Environment
- Territory, heritage and history

Legal, Economic and Management Sciences

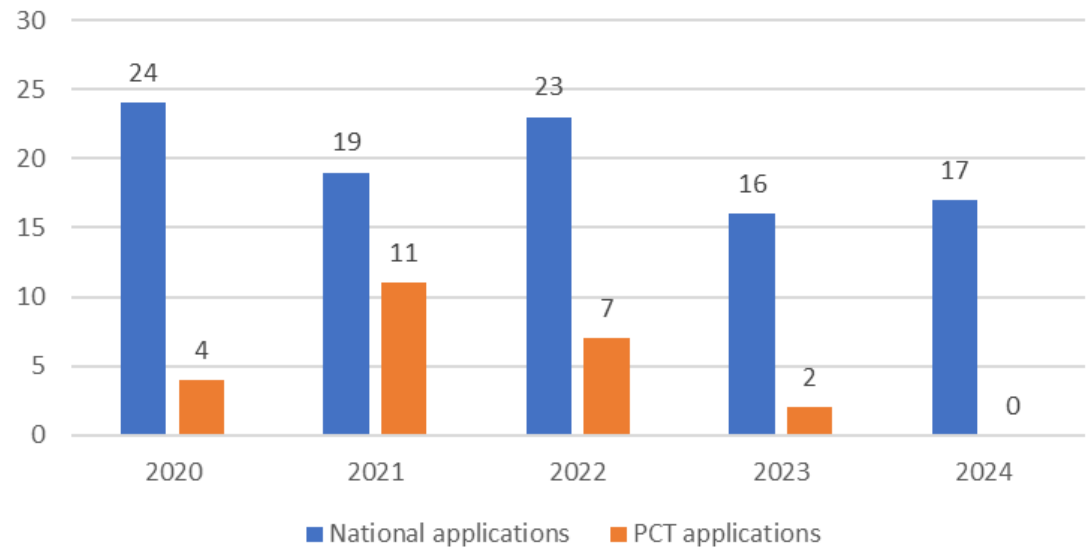

- Law and development issues
- Political science, strategic studies and legal analysis
- Economics, finance and management
- Entrepreneurship
- Shariaa, Law and society
- Territory and management of organization
